

Rahul

PROFESSIONAL SUMMARY

Detail-oriented React Native Developer with 3+ years of experience building high-performance, cross-platform mobile applications using React Native, TypeScript, and JavaScript. Strong expertise in native module integration, custom animations, offline-first architecture, push notifications, and modern state management solutions.

Proven ability to deliver production-ready enterprise mobile applications with optimized performance, smooth 60fps animations, and seamless backend integrations. Experienced in App Store & Play Store deployments, CI/CD pipelines, and mobile performance optimization strategies.

TECHNICAL SKILLS

Mobile Development

- React Native (CLI & Expo)
- React Navigation (Stack, Tab, Drawer)
- TypeScript, JavaScript (ES6+)
- Native Modules (iOS/Android Bridge)
- Responsive Layouts (Flexbox, Dimensions API)
- Push Notifications (FCM, APNs)

State Management

- Redux Toolkit
- Zustand
- React Query (TanStack Query)

Backend & APIs

- Node.js, Express.js
- RESTful APIs
- GraphQL
- WebSockets / Socket.io
- JWT Authentication, OAuth2

Database & Storage

- SQLite / WatermelonDB
- AsyncStorage / MMKV
- Firebase Realtime Database
- MongoDB

Cloud & DevOps

- AWS (EC2, S3)
- Firebase (Crashlytics, Analytics, Cloud Messaging)
- Fastlane (iOS & Android automation)
- GitHub Actions
- CI/CD Automation
- CodePush (OTA Updates)

Testing & Quality

- Jest
- React Native Testing Library
- Detox (E2E Testing)
- Code Reviews
- Performance Optimization (Hermes, Flipper)

PROFESSIONAL EXPERIENCE

VVP Softech Services from Jul 2025 to Present
Apptech Interactive from Aug 2023 - Jun 2025

Key Contributions

- Developed production-grade cross-platform mobile applications using React Native, delivering consistent experiences across iOS and Android.
- Built scalable mobile architectures using reusable component libraries and modular folder structures.
- Reduced app launch time by 30% through Hermes engine optimization, lazy loading, and bundle size reduction.
- Improved API response efficiency by 25% through backend optimization in Node.js.
- Implemented role-based access control and secure authentication mechanisms using JWT and biometric authentication.
- Established CI/CD pipelines using Fastlane and GitHub Actions, reducing deployment time by 40%.
- Led code reviews and mentored junior developers to maintain high-quality coding standards.

KEY PROJECTS

Mapinger - Indoor Wayfinding System

Tech: React Native, React Navigation, MapView

- Developed multi-level indoor navigation using dynamic SVG rendering with react-native-svg.
- Implemented offline-first architecture with local data caching for seamless indoor use.
- Built analytics dashboard with real-time tracking and push notification alerts.
- Supported accessible routing with elevator detection and auto-level transitions.

Indian Panchang Platform

Tech: React Native, TypeScript, SQLite

- Built multi-calendar conversion system (Lunar, Solar, Gregorian) as a mobile app.
- Implemented offline data storage using SQLite for calendar computations.
- Developed content feed with dynamic deep linking and in-app navigation.

Mediscan Super Admin

Tech: React Native, Redux Toolkit, Node.js, Razorpay SDK

- Built multi-branch appointment & payment management mobile platform.
- Developed responsive admin dashboards optimized for tablet and mobile.
- Integrated Razorpay payment gateway SDK with secure APIs.
- Reduced API response time by 25% via optimized queries.

RayAuth - OAuth2 Provider

Tech: React Native, Node.js, JWT, OAuth2, Biometrics

- Built secure token-based authentication system with biometric login support.
- Reduced authentication latency by 15% through optimized token validation and secure storage using react-native-keychain.
- Implemented OpenID Connect flows with refresh token rotation.

Busmate - Real-Time Bus Tracking

Tech: React Native, Node.js, WebSockets, react-native-maps

- Implemented real-time tracking system serving 200+ students on iOS and Android.
- Built live dashboard with offline fallback functionality using AsyncStorage.
- Integrated react-native-maps for real-time vehicle location updates with smooth marker animations.

Education

- RGPV - 2021 - BTech
